

## Health Oasis PrimeCare & Wellness Centre

---

### **MEDICAL DISCLAIMER & TREATMENT INFORMATION**

Health Oasis PrimeCare & Wellness Centre provides IV hydration therapy and wellness treatments administered by a qualified and registered professional nurse. While safety and clinical standards are prioritised, IV therapy is a supportive wellness treatment and not a substitute for medical care, diagnosis, or emergency treatment.

### **GENERAL MEDICAL DISCLAIMER**

The information provided on our website, social platforms, and consultation materials is intended for general wellness purposes only. It should not replace the advice of a licensed healthcare provider. Clients should consult a medical professional before undergoing IV therapy if they:

- Have chronic medical conditions
- Are pregnant or breastfeeding
- Take chronic medications
- Have a history of allergic reactions
- Recently underwent surgery
- Are unsure whether IV therapy is appropriate

Seek medical care immediately if severe symptoms occur before, during, or after treatment.

#### Treatment Eligibility & Client Responsibility

Before receiving an infusion, clients must:

- Provide accurate and complete medical information
- Disclose all medications, supplements, and allergies
- Confirm existing health conditions
- Inform the nurse of any new or unusual symptoms

IV therapy does not diagnose conditions, replace required medical treatment, or guarantee specific outcomes. Wellness results vary between individuals.

#### **POSSIBLE SIDE EFFECTS**

IV therapy is generally safe when performed by trained professionals, but the following may occur.

##### Common, Mild Effects:

- Redness, swelling, or bruising at the insertion site
- Mild discomfort during the drip
- Feeling cold or light-headed
- Metallic or vitamin-like taste

##### Less Common Effects:

- Headache
- Nausea
- Warm or flushed sensation
- Temporary drop in blood pressure

- Increased urination

Rare but Important Risks:

- Allergic reactions
- Infection at the insertion site
- Vein irritation (phlebitis)
- Infiltration (fluid entering surrounding tissue)

If discomfort occurs, the infusion may be slowed or stopped immediately.

#### **SAFETY MEASURES AT HEALTH OASIS**

To ensure client safety:

- All equipment is sterile and single-use
- Ingredients are medical-grade vitamins and minerals
- A health screening occurs before treatment
- Monitoring continues throughout the session
- Clients may stop the session at any time
- Treatment is safely administered at the centre or at home

#### **INGREDIENTS USED IN OUR IV DRIPS**

Formulations may include:

- Normal Saline / Electrolyte Solution
- Vitamin C
- B-Complex Vitamins
- Vitamin B12
- Magnesium

- Glutathione
- Zinc
- Amino Acids
- Biotin

Custom blends are available based on wellness goals.

#### **CONSENT TO TREATMENT**

By receiving IV therapy at Health Oasis PrimeCare & Wellness Centre, clients confirm that they:

- Understand the purpose, benefits, and risks
- Have had the opportunity to ask questions
- Voluntarily consent to treatment
- Acknowledge that no specific outcome is guaranteed
